

About the GKCLCA and our Conference

The Greater Kansas City Lactation Consultant Association (GKCLCA) is a chapter affiliate of the United States Lactation Consultant Association (USLCA).

Our group has four meetings throughout the year. The objectives for our meetings are to provide networking for local lactation consultants and those preparing to take the IBLCE board exam; to provide educational offerings for those interested in the field of lactation; and to provide educational credits (CERPs) for those needing recertification. The meetings also help attendees keep current with new information on breastfeeding.

Our yearly conference is planned to provide several contact hours on one day for local professionals. We would be pleased to have you join us!
