

In Kansas, over 90% of mothers choose to breastfeed. These families look for child care providers that support their decision. Improve your knowledge and skills to care for the breastfed baby - take the course:

“How to Support Breastfeeding Mothers & Families”

- Increase your understanding of breast milk storage & handling
- Build confidence to use the “paced bottle” feeding method
- Provide 2 hours of professional development
- Allow you to display the “*We Care for Breastfed Babies*” window decal at your program.

FREE Online Class each month
